

NOTES:

1. CONNECT TO NEUTRAL START SWITCH. IF A SWITCH IS NOT USED AT THIS POSITION, CONNECT WITH SCREW & NUT; INSULATE WITH NEOPRENE SLEEVE.
2. ELECTRICAL ACCESSORY LOAD CANNOT EXCEED 35 AMPS.

Note: This schematic was found with other papers associated with a 1973 16 ft. Century Resorter. The scan was made by Grant MacLaren in January of 2012.
